Words from the chairman

Chairman & Founder
Zouheir M. Yakine

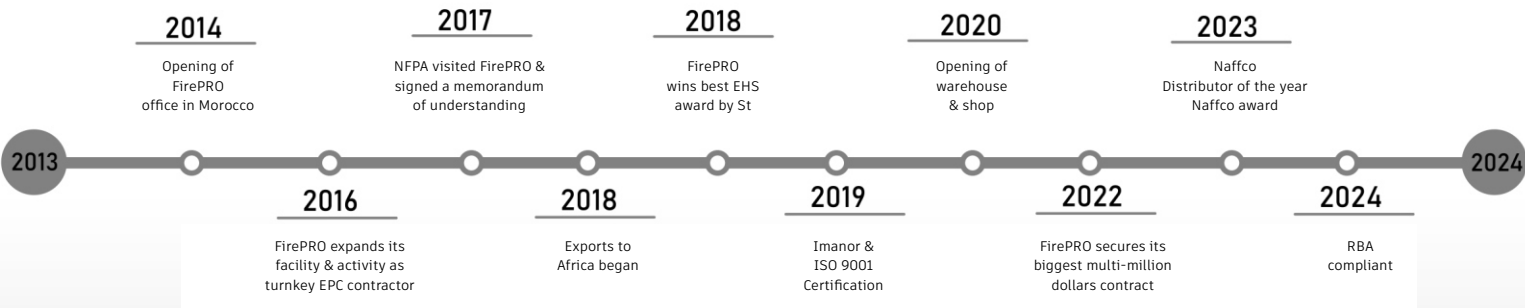

“

The success measure of any fire protection and life safety company is how well it reacts and adapts to changes in its surrounding market and in the world at large. At FirePro Engineering, not only we react and adapte to market changes, but we are at the forefront of positively driving both the technological and regulatory changes that serve to improve life safety and advance fire protection of people and property. As the leading fire protection engineering firm in Morocco with unparalleled international fire protection expertise that is unmatched locally, we have managed in a shot period of time to transform the competitive landscape, influence the regulatory requirement and raise the bar when it comes to fire protection engineering and performance-base designs.

We have acted as a bridge and liaison between the various moroccan and American organizations and entities such as NFPA, IMANOR, USA Commercial Attche and the American chamber of commerce to capitalize on synergies to make the fire protection and life safety industry in Morocco a benchmark and the reference in Africa. We are passionatr about protecting life and proprety and look forward to serving you with a golbale fire protection expertise that is simply unmatched lically!

”

OUR EXPERIENCE ON THE FIELD

CERTIFIED

GLOBAL FIRE EXPERTISE DELIVERED LOCALLY !
